

## NEWS CULLED IN THE CAPITAL

ACTIVITIES OF STATE DEPART-  
MENTS—OTHER HAPPENINGS

Special Columbus Correspondent.

IT WILL not be necessary for the Democrats to run a "dummy" candidate for second choice for President in Ohio, nor will the Republican candidates for national delegates have to express a second choice after Mr. Burton. Secretary of State Hildebrandt, after receiving and filing the letter of President Wilson consenting to the use of his name, ruled that it was not the intention of the law that candidates for delegates should express a second choice unless they had second choices—that is, that they do not have to have second choices. At the same time the secretary took occasion to warn candidates for national delegates in both parties in the congressional districts against danger due to the fact that the referendum on the Sprague act is to be tested in the courts. Without expressing an opinion as to the result of that litigation, he advises all candidates to file their names as candidates in both the old and new districts so as to be in line with the requirements of the law no matter which way the case goes.

**Wolves in Hocking Country.**  
Wolves are becoming bold in the wooded hills of Hocking country. Not for many years have any of these animals been seen there, and it is believed that these are offspring of a number that came across the ice on Lake Erie from Canada a year ago and made their way into the mountains of Pennsylvania. While hauling fodder from a field on his farm near Laurelville, Fred Dunn claims that he was attacked by a number of the animals, which he fought off with a pitchfork. When his word was doubted by his neighbors he organized a hunt, which succeeded in locating the pack, containing five animals, one of which was shot and brought home as absolute proof of the existence of the wolves in the Hocking hills.

**Not Entitled to the Fees.**  
A decision by the court of appeals of this district will cause county treasurers throughout Ohio to be the gainers by thousands of dollars. The court holds that since the enactment of the general code that county clerks are not entitled to retain fees collected in naturalization cases. Under the federal naturalization laws one-half of the fees go to the government and one-half to the county clerk doing the work. The general code enacted in 1910 provides that the clerk shall turn all fees into the county treasury. This is the first time that the court has ever passed upon the question of whether fees collected by county clerks in naturalization cases should be paid into the public treasury.

**Fourth Time a Success.**  
The fourth attempt at suicide in the three days he had been in the state hospital here proved successful in the case of Miles Gaffney, aged 35. Each attempt was made by hanging with improvised ropes, and the keepers supposed that everything that he could use in that way had been taken from him. Early yesterday morning he was missed from his couch and the keeper found him suspended and dead in a bathroom. He had made a noose by combining a short towel he found in the bath with his belt. Fastening this to the gas fixture, he stepped from the closet seat and the fall of two feet strangled him.

**Will Find Status of Bureau.**  
To determine the present status of the blue sky bureau of the state banking department, Attorney General Turner and Auditor of State Donahay will make an agreement by which the latter will refuse to honor the vouchers of the employees of the bureau and the former will mandamus him to do so in supreme court. The object of the blue sky law was wiped out by the blue sky bureau.

**Press Association in Session.**  
The annual meeting of the Buckeye Press association opened here yesterday with a formal address by W. J. Mortal of the Somerset Press. Other addresses made at the afternoon meeting were by H. D. Banks of Berea, Mrs. J. E. Etchell of Sherwood and T. T. Tipton of Williamsport. The session today was held at the state university, where the department of journalism entertained the members. Tonight they will be entertained by the city at the theaters.

**Will Bring Suit.**  
W. G. Stoneman, the owner of the building into which Adjt. Gen. Hough wanted to move the state industrial commission, says he will now bring suit against the state and the members of the commission individually for the expense to which he was put in making ready the building for the use of the commission and which will be a total loss to him.

**Cities Want More Money.**  
Methods to get more money for cities for operating purposes were discussed at a meeting of the Ohio Municipal league in Columbus. Under the present laws many cities are unable to raise funds enough from taxation to meet current expenses, and unless some relief is afforded by the legislature bankruptcy will follow, so it is asserted. Auditor of State Donahay says that the next general assembly must necessarily give attention to the problem of making it possible for taxing districts to get money enough to run on.

**No Money, Dismisses Employees.**  
An appropriation of \$25,000 having been used up, the public utilities commission has been compelled to dismiss 23 employees who were taken on to appraise public utilities. Thirteen of the employees were engineers and seven were clerks. The engineers received \$1,500 a year and the clerks \$1,450. A new appropriation will be available July 1, but it is doubtful whether many of those dropped will be taken back because of a decision of the commission to only make appraisements when there is a dispute as to rates.

**Medical Statistics.**  
Since the state medical law was enacted in 1896, 13,919 certificates to practice have been granted to physicians and surgeons, 258 to osteopaths, and 564 to midwives; 708 applications to practice medicine and surgery have been rejected, 53 have been revoked and seven have been reinstated. These figures are given in the annual report of the board just filed with the governor. In the last year 31 physicians, 5 osteopaths and 18 midwives were registered. One physician and 5 midwives were rejected. Twenty-five certificates were granted to physicians from other states under the reciprocity agreement. There are 94 medical colleges in the United States and Canada of which only 64 are recognized by the Ohio board. The receipts of the board last year were \$6,147; the expenses \$7,088.91.

**Does Not Wholly Relieve Situation.**  
The letter from President Wilson to Secretary of State Hildebrandt of Ohio does not wholly relieve the Ohio Democrats of the embarrassment regarding the selection of national delegates under the new Ohio presidential preference act. It disposes of the question as to the candidate for president, but there is still the vice presidential office to be considered. To support whom for this office shall the delegates to the national convention from Ohio be pledged? Vice President Marshall has signified elsewhere that he will be a candidate for re-election, but there is no certainty that he will be nominated. So that as the "dummy" plan would have to be adopted after all for the second place on the ticket.

**Must Live Up to Standard.**  
Under action taken by the board of state charities a number of children's homes in various parts of the state will lose their right to receive and care for children unless they hasten to come up to standards for their operation fixed by the board. The board is preparing a list of institutions which have fallen under the band and will shortly make them known. One of the requirements of the board is that each institution must keep under close supervision for a certain period all children that are placed out in private homes. There has been much laxity in this respect which the board insists must be remedied.

**Can District Counties.**  
State central committees can divide counties into districts for the election of delegates and alternates to the state conventions of political parties, so Attorney General Turner ruled in an opinion to Secretary of State Hildebrandt, state supervisor of elections. The Democratic and Republican state central committees at their recent meetings took steps to divide counties into districts for the selection of delegates and alternates, instead of having them chosen from at large in the counties.

**Standard Oil Co. Stays.**  
George H. Phelps, Findlay attorney, has again failed in his efforts to drive the Standard Oil Co. from Ohio. The Ohio supreme court has overruled his motion for an order directing the court of appeals of Hancock county to compel Prosecuting Attorney Poe of that county to bring out proceedings against the company. The motion was up on rehearing. Phelps first tried to persuade the supreme court to order the attorney general to bring the ouster suit.

**Life Imprisonment.**  
The attorneys for Edward Peters, charged with the murder of Mamie Peters, his sweetheart, made no mistake when they advised him to admit the killing and throw himself on the mercy of the court, for Judge E. B. Dillon said, in disposing of the case, that it was an absolutely clear case of deliberate murder, but he was unwilling to withhold mercy from the man, so he sentenced him to life imprisonment.

**Agree to Civic Center Plan.**  
The state building commission virtually agreed to accept the Columbus civic center plan in regard to selecting a site for the new state office building. They will recommend the purchase of 300 feet on the west side of 4th-st. just east of the Capitol if the city will purchase 107 feet on the east side of 3d-st. between it and the Capitol and make it a park.

**Must Give Ingredients.**  
Omission from the label of the percentage of ingredients from such food products as maple syrup and other food products canned or packed does not constitute mislabeling, so Attorney General Hildebrandt has ruled in an opinion to the state board of agriculture. The ingredients must be mentioned, but not the percentage.

**Wants to Knock Out Civil Service.**  
Ex-Senator J. B. Dollison of Logan has started a movement to secure a repeal of the civil service amendment to the state constitution. He has been in correspondence with prominent Republican and Democratic party men throughout the state about the project, and it is asserted that a number of them have promised to aid him in his fight to eliminate civil service from Ohio. It is stated that he can count upon the support of at least two state officials, Secretary of State Charles Q. Hildebrandt and Treasurer of State R. W. Archer.

**Resigns as Superintendent.**  
Probably the super people in the state knew that the state maintained a state superintendent of laundries. The fact was brought out when the superintendent tendered his resignation. The position has been held for some years by H. T. Troxell, who now leaves the job to accept a position with the American Laundry Machine Co. Troxell's duties have been to superintend the laundries at the 19 state institutions that are under the control of the state administration board. He has been held responsible for their successful operation.

## EASTLAND MEN FREE

FEDERAL JUDGE AT GRAND RAPIDS ABSOLVES OWNERS INDICTED FOR MURDER.

TO ESCAPE TRIAL AT CHICAGO

Jurist Clarence W. Sessions Rules Accused Men Need Not Leave Michigan and Asserts Charges of Conspiracy Were Not Proved.

Grand Rapids, Mich., Feb. 21.—Six men charged by the government with responsibility for the loss of more than 700 lives in the Eastland disaster do not have to go to Chicago to stand trial.

This decision was handed down on Friday by Federal Judge Clarence W. Sessions, sitting as a commissioner in the district court here. He denied the government's application for a warrant of removal for the defendants, all of whom live in Michigan.

The finding of the court means practically that none of the defendants will ever be placed on trial by the government. There is a possibility that if any of them journey into other states than Michigan they may be seized and another attempt at extradition made, but it is declared to be a remote one.

The men, indicted here, who fought extradition and defeated the government are William H. Hull, president of the St. Joseph-Chicago Steamship company; George T. Arnold, general manager; Harry Pedersen, captain; Joseph M. Erickson, chief engineer, and Robert Reid and Charles C. Eckliff, federal inspectors.

Judge Sessions, in his opinion, said the government had failed utterly in all attempts to show conspiracy and negligence.

In making his decision the judge said: "The dead cannot be restored to life. The sorrow of the living cannot be lessened by claiming other victims. The majesty of the law cannot be upheld and vindicated by taking men from their homes to stand trial among strangers upon accusations which there is barely a scintilla of proof to sustain. The evidence in this matter wholly fails to establish the probable cause for believing any of these defendants guilty of any crime charged in the indictments."

**HANS SCHMIDT IS EXECUTED**  
Former Priest Pays Penalty for Slaying Girl in Sing Sing Prison.

Ossining, N. Y., Feb. 21.—Hans Schmidt, the unfrocked priest who murdered his sweetheart, Anna Mueller, was put to death in the electric chair in Sing Sing prison on Friday. His last words were:

"I send a hearty greeting to my mother. My last thoughts are of her. Good-by, all friends."

With a firm step he walked to his death, and on his way to the chair he asked forgiveness from all he had "offended or scandalized," and in turn forgave all who had offended him. Three shocks were necessary.

It is believed Anna Mueller was murdered on September 2, 1913. It was on September 5, 1913, that part of her body was found floating in the river off Woodcliff, N. J.

When he was arrested the priest made a full confession. He said he had killed the girl and that he had cut her body into nine pieces.

**RATIFIES NICARAGUAN PACT**

Canal Route and Naval Base Treaty Is Approved by the Senate, 55 to 18.

Washington, Feb. 21.—The senate on Friday by a vote of 55 to 18 ratified the long pending and persistently opposed Nicaraguan treaty, whereby the United States would acquire a 9.9-year option on the Nicaraguan Canal route and a naval base in the Gulf of Fonseca for \$4,000,000.

Included in the ratification resolution was a provision declaring that the United States in obtaining the naval base does not intend to violate any existing rights in the Fonseca Gulf of Costa Rica, Honduras and Salvador, which had protested against the proposed acquisition.

Immediately after the senate had acted, Senator Chamorro, the Nicaraguan minister, said he expected ratification of the convention by his government would soon follow.

**U. S. Refuses New Sea Order.**

Washington, Feb. 21.—All diplomatic and consular officials abroad have been notified in a circular communication from the state department that the position of the United States is that merchant ships have a right to carry defensive armament.

**Eloper Sent to Prison.**

Madison, Wis., Feb. 19.—Charles Follansbee, of Waterloo, Wis., at Superior was sentenced to two and a half years in Leavenworth prison for violation of the Mann act. Follansbee eloped with Mrs. Anna Kelly.

## ENOUGH TO SHOCK 'MOST ANYBODY

## RUSS TAKE ERZERUM 21 PERISH IN MINE FIRE

GRAND DUKE REPORTS GREAT VICTORY OVER TURKS

More Than 40,000 Made Prisoners—Two German Commanders May Be Lost.

London, Feb. 18.—Led by Grand Duke Nicholas, the Russian army of the Caucasus has captured the great Turkish fortress of Erzerum, in eastern Asia Minor.

The following official statement was given out on Wednesday in Petrograd:

"Grand Duke Nicholas has telegraphed to the emperor as follows: 'God has granted to the brave troops of the army of the Caucasus such great help that Erzerum has been taken after five days of unprecedented assaults.'"

"I am inexpressibly happy to announce this victory to your imperial majesty."

More than 40,000 Turkish troops were captured in Erzerum with the investment of the fortress, according to Tiflis dispatches. Two noted German leaders, Field Marshals von Goltz and Limon von Sanders have recently been reported at Erzerum. It is not yet known whether they escaped.

Erzerum is the chief town in Armenian Turkey, and as the center of important roads and strategic lines is of vast importance. Its capture opens a new road to Constantinople. It has a population of about 45,000, and lies at an altitude of 6,250 feet in the Caucasus mountains. It was first held by the Turks in 1517.

## LUSITANIA CASE HELD UP

Lansing Satisfied With Revised Agreement, But Wants Assurances on Liners' Safety.

Washington, Feb. 18.—The Lusitania case is held up and the entire question of submarine warfare reopened as a result of the German and Austrian declarations that armed merchantmen shall be sunk without warning, it was declared on Wednesday by a high official of the state department. After a conference with Count von Bernstorff, the German ambassador, Secretary of State Lansing announced that the Lusitania case depends "upon how submarine warfare is to be conducted in the future."

The revised Lusitania answer, submitted by the German ambassador, is satisfactory to the administration, and it was admitted that it would be formally accepted, provided the administration is told that passenger ships are not to be sunk without warning.

## NINE DIE IN THEATER FIRE

School Children Lose Lives During Panic in Opera House at Mexico, Tex.

Mexico, Tex., Feb. 18.—Nine persons were burned to death and fifteen people injured when a fire here destroyed the opera house, where the public schools were holding an art exhibit. Paris, Feb. 19.—Crown Prince Frederick William of Germany has been placed in command of the German armies in Alsace-Lorraine as well as that in the Argonne, according to the Echo de Paris.

## FLAMES SWEEP COPPER SHAFT AT BUTTE, MONT.

Workers Are Suffocated While Attempting to Flee From Blast—Two Rescuers Lose Lives.

Butte, Mont., Feb. 17.—Twenty-one dead and missing sums up the extent of the fire that visited the depths of the Pennsylvania mine, one of the properties of the Anaconda Copper Mining company. Nine bodies have been recovered; for the missing, no hope is entertained. All were victims of a fire which started near the shaft of the mine about nine o'clock at night. Two of the dead were rescuers, who were overcome while at work underground.

All others were suffocated while trying to escape. The disaster was the worst in Butte, with the exception of the powder explosion January 15, 1895, when nearly sixty persons lost their lives. Two hundred and twenty men were at work in the Pennsylvania when the cry resounded through the depths, "Gas has broken loose."

The dead: Zebina Hardwell, Bert Dulong, George Tippet, John Soderman, Jack Brennan, William Kelly, Neil Brennan, William Mitchell.

The missing: Fred Curnow, Frank F. Ferguson, John Inch, Frank McEnay, William F. Reynolds, Walter Steege, Leo Whitmore, Brance L. White, Ed Pfefferle, Charles R. Self, David Carlson.

All night rescuers went down the shaft at great risk to themselves. More than one hundred trips were made by parties of rescuers after the fire was discovered.

## AMBASSADOR MARYE TO QUIT

Washington Report Says U. S. Diplommat at Petrograd Has Broken Down Under War Strain.

Washington, Feb. 17.—United States Ambassador George T. Marye, at Petrograd, Russia, has broken down under the war strain. He has decided that he must retire from the diplomatic service. Confidential advices received here on Tuesday say that the ambassador either already has resigned, or will do so in the immediate future.

Ambassador Marye's confidential secretary, Ray Baker, reached the United States Monday, and hurried to Washington. He declined positively to discuss the report that he had been commissioned by the ambassador to present his resignation to President Wilson. Ambassador Marye was born in Maryland, but has lived for many years in California.

## FLASHES OFF THE WIRE

Copenhagen, Feb. 17.—The Swedish government has decided to abstain from maintaining neutrality defenses, says a dispatch from Stockholm.

Amsterdam, Feb. 17.—According to the Echo Belge, three persons were killed and ten wounded at Assenede, Belgium, when German soldiers fired into a crowd assembled to protest against further German requisitions.

## Refuse to Indorse Whitman.

New York, Feb. 18.—By a vote of 36 to 8, the committee on resolutions of the Republican state convention on Wednesday refused to incorporate in the main platform an indorsement of Gov. Charles S. Whitman.

## RESCUED BY GOVERNMENT

REFUGEES MAROONED ALONG THE MISSISSIPPI LEVEE AT BUCK RIDGE.

Suffering On Increase Due to Big Flood—Boat Engaged For Relief Work.

Western Newspaper Union News Service.

Natchez, Miss.—The Government steamers Lafourche and Tensas, engaged in relief work around Newellton, left for Natchez with loads of refugees from the area flooded as a result of the great crevasse in the Mississippi River levee at Buck Ridge plantation. The steamers Concordia and Uncle Oliver left here for the crevasse and will continue the work of rescuing persons marooned along the levee and in high places in the flooded sections. Only a few boats are capable of navigating the district between Newellton and the Tensas basin, and it was estimated here that it would take a week to rescue all the people in that section. Further rescue work will be facilitated by the use of flat boats. The condition of the marooned refugees was still uncertain. Reports from rescuers state that suffering was on the increase. The water from the crevasse was reported to be past Waterproof and had covered all of Tensas Parish with the exception of a few high points. East Madison and Morehouse Parishes were also reported covered.

## FUGITIVES BREAK FROM JAIL.

Deming, N. M.—In a running battle between pursuers and pursued in automobiles, which came as the climax of a cross-country chase after five fugitives who broke jail Sheriff Dwight Stevens, of Luna county, was killed. One of the escaped prisoners also was killed and another wounded. Buck Sevier, a Deming merchant and a member of the Sheriff's posse, was seriously wounded. The three remaining prisoners escaped.

## HOSPITAL DESTROYED BY FIRE.

Massillon, O.—Fire destroyed the laundry building at the State Hospital for the Insane, near here, with a loss estimated at \$50,000. For a time, it was believed the flames would spread to cottages in which 1,500 patients were confined. The origin of the fire has not been determined. No one was injured, and nurses reported there was no panic among the inmates.

## PASSENGER TRAINS COLLIDE.

Spokane, Wash.—Five persons were killed and six injured when a Northern Pacific passenger train, known as the North Coast Limited, eastbound, crashed into the rear end of a Northern Pacific and Burlington train, also eastbound, at South Cheney, Wash., 17 miles from Spokane. The wreck was caused by a fog.

## NEGOTIATING FOR NAVAL BASE.

Washington.—Information was forthcoming from an authoritative source that Japan has renewed her attempts to obtain a footing on the western hemisphere. At the present moment, it was stated on high authority, Japan is negotiating with Colombia for the purchase of a site on her coast. These negotiations are of comparatively recent origin, it is said, and follow the failure of Japan to consummate a similar bargain with the Republic of Panama.

## THIRTY-FIVE PERSONS POISONED.

Pittsburg, Penn.—Mystery surrounds the illness of 35 persons who were compelled to ask for medical attention after attending a church supper in Carnegie, near here. Opinions regarding the cause differ. One physician, who attended a number of the victims, said he believed they were suffering from ptomaine poisoning, while another physician said the symptoms were similar to those of arsenic poisoning. It was said that all the victims would recover.

## HAVE ROSY CHEEKS AND FEEL FRESH AS A DAISY—TRY THIS!

Says glass of hot water with phosphate before breakfast washes out poisons.

To see the tinge of healthy bloom in your face, to see your skin get clearer and clearer, to wake up without a headache, backache, coated tongue or a nasty breath, in fact to feel your best, day in and day out, just try inside-bathing every morning for one week.

Before breakfast each day, drink a glass of real hot water with a teaspoonful of limestone phosphate in it as a harmless means of washing from the stomach, liver, kidneys and bowels the previous day's indigestible waste, sour bile and toxins; thus cleansing, sweetening and purifying the entire alimentary canal before putting more food into the stomach. The action of hot water and limestone phosphate on an empty stomach is wonderfully invigorating. It cleans out all the sour fermentations, gases and acidity and gives one a splendid appetite for breakfast.

A quarter pound of limestone phosphate will cost very little at your druggist or general store, but is sufficient to demonstrate that just as soap and hot water cleanses, sweetens and freshens the skin, so hot water and limestone phosphate act on the blood and internal organs. Those who are subject to constipation, bilious attacks, acid stomach, rheumatic twinges, also those whose skin is sallow and complexion pallid, are assured that one week of inside-bathing will have them both looking and feeling better in every way.—Adv.

## Not the Soldier's Fault.

A certain army officer took to dinner at a Washington party a young lady who had just returned from England. "The young soldiers," she said, "are having it all their own way with the girls over there now. Too much of our own way, in fact. I know of a young lieutenant in the Blues who is said to be engaged to seven girls simultaneously."

"Oh, well," said the officer, with a deprecatory smile—"oh well, Cupid, of course, is using a machine gun these days."—Washington Star.

## "CASCARETS" FOR LIVER, BOWELS

For sick headache, bad breath, Sour Stomach and constipation.

## Get a 10-cent box now.

No odds how bad your liver, stomach or bowels; how much your head aches, how miserable and uncomfortable you are from constipation, indigestion, biliousness and sluggish bowels—you always get the desired results with Cascarets.

Don't let your stomach, liver and bowels make you miserable. Take Cascarets to-night; put an end to the headache, biliousness, dizziness, nervousness, sick, sour, gassy stomach, backache and all other distresses; cleanse your inside organs of all the bile, gases and constipated matter which is producing the misery.

A 10-cent box means health, happiness and a clear head for months. No more days of gloom and distress if you will take a Cascaret now and then. All stores sell Cascarets. Don't forget the children—their little insides need a cleansing, too. Adv.

## Record Exports of Flour.

Minneapolis reports a record sale of flour for the last three months—a total of
